

October 1, 2005 was my first day at NOACSC and December 31, 2021 will be my final day. In between I've worked with so many great people at our office, at our districts, and around the state. My heartfelt thanks to all of them.

Our accomplishments have been many and many have been significant. Just a few and certainly not all: tripling our services portfolio, adding five members districts, solid financial footing, and last but not least, our new office and training facility.

I could not have accomplished any of this without working for a good Board and with terrific staff.

The NOACSC and my 16+ years here have been the most rewarding in my career. I wish all the best.

Ray
