Contract Compensation Tips:

- Description
 - o Recommended to use *20xx-20xx Compensation*
 - o Keep these consistent year to year; It helps with EMIS Mass Changes
- Label
 - o This will show on the direct deposit notice and check stubs
- Compensation Start Date
 - o First day of work of the new contract
 - o Must be before or within the pay period of first pay
- Compensation Stop Date
 - o Must be within the pay period, or after, of the last pay on contract
- Contract Work Days
 - o Calculated off the Job Calendar by using the Compensation Start/Stop Dates
- Unit Amount
 - o Daily Rate = Contract Amount/Contract Work Days
 - o Hourly Rate = Contract Amount/Contract Work Days/Hours Per Days
- Pay per Period
 - o = Contract Obligation/Pays in Contract
- Accrued Wages (only for stretch pay employees)
 - o The amount the employee has earned on this contract, but has not yet been paid
- Amount Earned
 - o = Amount Paid + Accrued Wages + Amount Docked

Additional Info:

- If the last pay on old contract, and the start of the new contract are both within the same Pay Period, it will pay off the old compensation record and do accrued wages for the new compensation record
 - o Example: Pay period is 8/09/2019-8/23/2019

2018-2019 Compensation Start Date: 8/23/2018

Compensation Stop Date: 8/21/2019

2019-2020 Compensation Start Date: 8/22/2019

Compensation Stop Date: 8/20/2019
