HEALTH REIMBURSEMENT ARRANGEMENT

- The IRS has added a Code FF for Box 12. It will report the total amount of permitted benefits under a qualified small employer health reimbursement arrangement. This will allow eligible employers to pay or reimburse medical care expenses of eligible employees after the employees provide proof of coverage. Use this code to report the total amount of permitted benefits under a QSEHRA. The maximum reimbursement for an eligible employee under a QSEHRA is \$5,450 (\$11,050 if it also provides reimbursements for family members), before indexing for inflation.
- Eligible employers are those **small employers with less than 50** Full-Time Equivalent employees (those who work 130 hours a month or 30 or more hours a week for 120 consecutive days). Another eligibility is that the employer does **NOT** offer a group health plan to any of their employees.
- You will need to add a value in **Core/Adjustments** for Health Reimbursement. Then this value will appear on the W2Tape file and W2FORM.DAT as a code FF with the amount in Box 12. The Health Reimbursement amount will also appear on the W2CITY.DAT file. The Health Reimbursement amount (HEALTH REIMBURSE) will appear on the W2 Report under the employee's Federal heading, if there is an amount to report. The HEALTH REIMBURSE amount will also total and appear in the Grand Totals and Report Totals, if there are any.

W2 Report Errors

Warning messages are now grouped together with errors and info messages on the W2 Report:

- **Warning Federal Total annuities, \$xxxx.xx, does not equal total gross less taxable gross**
 - The W2 Processing program verifies that the annuity (generally in the 500-599 payroll items code range) payroll item amount equals the calculated annuity amount. The calculated amount is determined by taking the total gross and subtracting the taxable gross. The result is the amount of the annuity that was in effect while the tax was being withheld. If this calculated value differs from the totals on the annuity records, the warning appears.
This warning is often associated with a change that has been made to the taxable gross but no corresponding change was made to the total gross or vice versa. Manual adjustments in CORE/ADJUSTMENTS option to the annuity amounts may also cause this warning. Run the Audit Trail report to attempt to isolate these situations. If an annuity was in effect for only part of the year, this warning may appear and can be ignored.
- **Warning Payroll Item XXX: Negative annuity on file for this employee. Assuming zero.**
 - A total negative annuity indicates a check was voided from a prior calendar year in the current calendar year. Run the REPORTS/PAYMENT TRANSACTION STATUS REPORT option to attempt to isolate the problem. If this is the case, you will need to zero the negative amount of the annuity and file a W2-C form for the previous calendar year
- **Warning Employee last name contains a comma**
 - Check employee's last name for a comma and remove
- **Warning Federal Total , \$xxxx.xx, does not equal total gross less taxable gross**
- **Warning Payroll Item XXX: Negative amount payroll item can not be reported on W2, reporting zero**
 - This message indicates a check was voided from a prior calendar year in the current calendar year. Run the REPORTS/PAYMENT TRANSACTION STATUS REPORT to attempt to isolate the problem. If this is the case, you will need to file a W2-C form for the previous calendar year.
- **Warning Possible medicare discrepancy detected for amount over 200,000. Amount calculated = \$xxxxxx.xx**
 - This warning will appear if medicare wages are over \$200,000.00 and the medicare amount on the Payroll Item is not within 30 cents of the calculated value. This warning will allow the submission file to be written.
- **Warning Payroll Item XXX: No state ID on payroll item configuration**
 - This warning will appear if No state ID is entered on the State Tax Payroll Item configuration
- **Warning Federal gross is zero**
 - The employee has no gross amount on the Federal tax record (001).
- **Warning Payroll Item XXX: Calculated annuity amount exceeds the total annuities**
 - The calculated annuity value is larger than the amounts showing on the annuity (generally in the 500 through 599 Payroll Item code range) records. The calculated amount is determined by subtracting the taxable gross from the total gross.
Manual changes may have been made to the payroll items. It is possible the total or taxable gross was changed incorrectly due to an error adjustment, thus causing the calculated annuity amount to be too high.
- **Warning Payroll Item Employer Health Coverage: Negative amount payroll item can not be reported on W2, reporting zero**
